## **HARC MINUTES FOR FEBRUARY 2015 MEETING**

Respectfully submitted by Dave Milam KB0RZN

## Hannibal Amateur Radio Club Monthly Meeting Minutes February 14th, 2015

February is our Dinner meeting month, and we didn't hold a regular meeting. HARC members and guests met at Golden Corral in Hannibal with good attendance. After the meal, a presentation was made by Don (KD0HHN) to Howard (K0DFW) as "Member of the Year". Don stated that Howard has participated and served the Club for many years in the past as well as instrumental in setting up Field Day this past year. Howard was presented a plaque from the Club showing our appreciation. Congratulations Howard! A drawing was held with many gifts being given out. Fun and fellowship was enjoyed by all! Our next regular meeting will be held March 11<sup>th</sup> at 7:30pm. Please plan to attend!

**Respectfully submitted by Dave Milam KB0RZN**

### FROM THE PRESIDENT'S DESK BY DON VARY KD0HHN

It was nice to see everyone who made it to the dinner on the 14<sup>th</sup>. I think we had around 25 members and guests, not bad for a Saturday night and Valentine's Day to boot. Congratulations to Howard, K0DFW on being selected as the HARC Member of the Year. I know that his business keeps him busy, but he still finds the time for Amateur Radio, and for that, I am truly thankful.

As I mentioned at the dinner, I am working on getting a Technician class started in the near future. If you know of anyone who might be interested in getting their license, let me know. I will be attempting to get in contact with some of the science teachers to see about doing a presentation for them about how Amateur Radio can fit into their classes, and see if we can generate some interest in the class from them, and maybe eventually re-establishing a club at the school.

Speaking of classes, I was contacted by the Adams County Emergency Management Agency about a severe weather and preparedness conference that they are hosting on the 28<sup>th</sup> of March. The brochure for it is enclosed for anyone who may be interested. There is a cost of \$40.00 for the conference, and it includes breakfast and lunch. They are hoping to make this an annual event, and space is limited to 120 people. If this sounds like something you might be interested in, contact them and register for the conference. It looks like it might be an interesting day.

Well, not much else to talk about. Hope everyone is well, and stays safe. Just think, only a little over a month until Spring.

### **K1N FINAL PRESS RELEASE**

Dated February 21, 2015, from the KP1-5 Project

The K1N DXpedition team has only been home a few days, but we are slowly recovering from what was a difficult project. It was over too soon considering that it took 15 years to gain permission, plan and execute the DXpedition. The DX world is very complimentary of our results...140,000 QSOs and over 30,000 uniques. This is especially impressive when you consider that we had only had 14 active operators, 7 HF radios, 5 small amplifiers and only 4 small beams. Many of our QSOs were made barefoot and with dipoles hanging very high on the lighthouse on Navassa. This is what we called a MVC (Minimum Viable Configuration) necessitated by the use of helicopters for primary transport.

We have many to thank. The USFWS for allowing our operation after 22 years off-the-air. The terrific team of USFWS officers and biologists who accompanied us and became part of our team. Our sponsors, both equipment and financial, our team of radio pilots, our helicopter crew of Danilo, Nelson and JC, the staff of Moxon's Beach Club, the staff at Ian Fleming Intl. Airport and our new friends, the Haitian fisherman at Navassa. When we departed, they received gifts from us of gasoline, clean water, clothing, food and other items. Hopefully, this will help them in their difficult and dangerous existence.

Lastly, we want to recognize and thank a group of 1543 DXers. These people heard and responded to our plea for financial support prior to our DXpedition as this when the majority of our considerable expenses occurred. Last night, these special and generous people had their QSOs with K1N uploaded to LoTW (logbook of the world). This service was NOT a condition of their contribution, but comes as a completed surprise.

Thanks to you all for a memorable experience!

Dear Troops, We really appreciate your service. We know you are over there making it possible for us to be home over here living our days in safety. Your self-sacrifice to do this reminds us of Christ who was willing to leave His heavenly home to come to earth, suffer and die, and rise again for us. May He bless you in a special way and give you a great year!
